EXPLANATION FOR SUBMISSION OF SUBSTITUTE FORM PTOL-85B

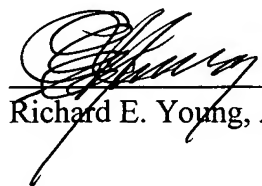

Gentlemen:

Applicant inadvertently misplaced the original Form PTOL-85B from the 'Notice of Allowance and Fee(s) Due' for payment of the issue fee on the above identified application.

Applicant does have a low quality copy of the original form PTOL-85B having the pertinent data ('Class-Subclass' unreadable on copy). Applicant had someone go to the USPTO web site and download, from the 'Forms' section of the 'Patents' section, the required form. The fillable version was utilized and the information was completed as much as possible. The fillable form version would not permit entry of data in the 'Title of Invention', 'Examiner', 'Art Unit' and 'Class-Subclass' sections under either Netscape or Internet Explorer.

Applicant apologizes for any inconvenience this 'Substitution of Form' might cause.

Sincerely,

 10/17/05
Richard E. Young, Applicant, Date
